# SUCCESS IS IN THE DETAILS

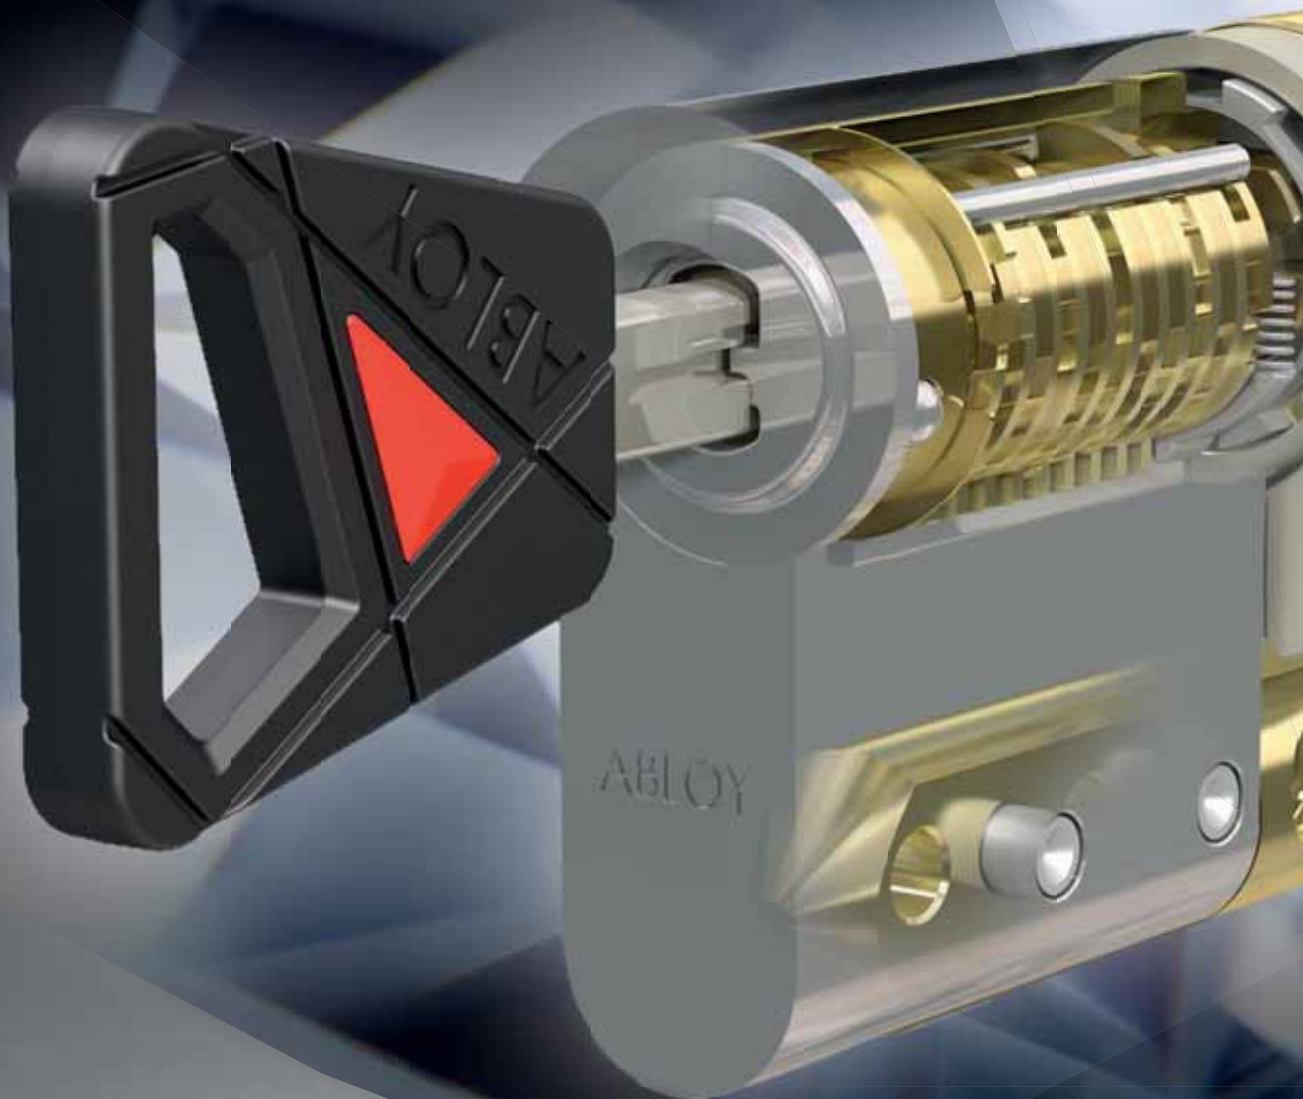

Locking security is an essential part of any successful organisation, whether it is a school, hospital, apartment or office. The unique **ABLOY®** rotating disc technology provides smooth and reliable function in every environment. The convenient and long lasting **ABLOY® NOVEL** is one of the newest member in the **ABLOY®** cylinder family.

**ABLOY® NOVEL** is perfect master key system for your organisation regardless of the number and type of applications or the complexity of your operational requirements.

**ABLOY® NOVEL** offers professional and tailored security according to your specific needs. Your security and safety are ensured today as well as in the future. Cylinders, keys and key blanks are protected by patents worldwide until 2027.

**ABLOY®** is selected as the first choice of the professionals in countless applications all around the world. They are used extensively by private, commercial and governmental end users who demand the ultimate in high security.

*ABLOY® cylinders, including  
ABLOY® NOVEL, meet the highest  
requirements of EN 1303 standard.  
EN 1303 is a European standard for Cylinders  
and locks giving specifying requirements and  
test methods. ABLOY® padlocks also fulfil  
and exceed the European standard  
EN 12320 for Padlocks and  
padlock fittings.*

# THE UNIQUE **ABLOY®** CYLINDER MECHANISM

The unique **ABLOY®** cylinder mechanism, based on the use of rotating discs instead of the traditional springs and pins, is known widely by security professionals all over the world. The **ABLOY®** rotating disc cylinder construction offers numerous unsurpassed features and benefits over conventional locking cylinders whether it is a door cylinder, padlock, furniture lock or cam lock. **ABLOY®** NOVEL cylinders are bump proof and virtually pick proof.

## LONG LASTING SOLUTION

Modern designed, reinforced plastic composite key bow with nickel silver shaft makes the **ABLOY®** NOVEL key pleasing to handle and use. The symmetrical key is reversible and durable, thanks to its precision manufacturing. Longevity is further improved with the new patented feature, **AWS** (Anti Wear System), which is an arrangement in the key and in the cylinder that prolongs the life cycle - ensuring a long and trouble free service life even in extensive use applications. The unique and patented rotating disc technology provides a smooth and reliable function whilst meeting the most complex needs of an organisation.

# ONE KEY – MANY APPLICATIONS

Superior master keying features are offered based on our vast number of key combinations. In an **ABLOY® NOVEL** locking system, different products can be keyed into one master key system and thus all products can be operated with just a single key whether the application is a door, gate, drawer or closet. The range is wide providing the possibility to create extensive master key systems that fulfill your exact specifications.

**ABLOY® NOVEL** is an excellent solution for new builds as well as when upgrading existing locking systems. With **ABLOY®** product range, the core always remains the same. The outer covering can be changed according to need to meet local standards and applications – so far in more than 80 countries.

## PROFESSIONAL KEY SECURITY

Distribution of key blanks and the use of different security levels and profiles ensure the highest level of key control tailored to your exact needs. Duplication of keys is always strictly controlled. In order to get additional **ABLOY® NOVEL** keys, you must have the related keycard. Keys are supplied by the authorized **ABLOY®** Centers only.

*The unique  
and world wide  
patented solution offers  
maximum key security.  
**ABLOY® NOVEL** cylinders,  
keys and key blanks are  
protected by patents worldwide  
until 2027.*
